All, unless massive
Split into functions
DEBUN-style collector
Pseudo-bundle
Aletheia-style + swc
AST graph
Syntax tree
Control-flow graph
Basic blocks
Property graph
Property order
Token sequence
Asm2Vec-style input
AST features
Node type, literals
CFG features
Block attributes
Property features
Names and literals
Token features
Tokens, literals
Encoder A
GIN or tree model
Encoder B
Edge-typed GNN
Encoder C
GIN over names
Encoder D
PV-DM or Transformer
AST embeddings
Own vector index
CFG embeddings
Own vector index
Property embeddings
Own vector index
Sequence embeddings
Own vector index
Compare conditions
Same data, same metrics
Data and evaluation
